AI Story Generation

How ComicCraft Works

1. Enter Your Idea
2. Generate Story
3. Create Comic
4. Share

Why ComicCraft?

ComicCraft transforms simple
ideas into engaging comic
stories using AI-powered
Gemini models.

“Scan to Create Your Comic”

Project-python coding

```
def create_comic_story(idea):  
    story = f"Comic story based on: {idea}"  
    return story
```

```
idea = input("Enter your comic idea: ")  
story = create_comic_story(idea)
```

```
print("Generated Comic Story:")  
print(story)
```

TECHNICAL CODING USAGE

Python

Used for AI story
generation
Handles user input and
story processing
Connects the
application logic with
AI models

Web Technologies

HTML – webpage structure
CSS – design and styling
JavaScript – interactive features
